### **About Somers Furniture**

We are specialists in luxury outdoor furniture design and manufacturing, featuring exquisite pieces lovingly handcrafted in Las Vegas, NV. With over 30 years' experience creating custom solutions for elite clients across the country, we proudly use only the highest quality materials to complement our unique and creative designs, providing our customers with the ultimate in outdoor living.

Our modern, sophisticated collections offer unparalleled exclusivity of design, providing both comfort and a truly luxurious experience every owner will appreciate.

We believe in the highest levels of service, strict adherence to quality, and perfection in design. Experience unrivaled elegance.

### **Somers Furniture Manufacturing**

We start with our handmade, wood-treated frame which has been tested to stand up to the harshest of elements, be it rain, intense sun and heat, cold weather, ocean moisture damage, or standing ground water. All wood for exterior use is weatherproofed with a protective clear finish, which is designed for wood that is exposed to sunlight, water, or temperature changes. This finish forms a protective barrier against rain and moisture and its special oils allow the finish to expand and contract with the wood as seasons and temperatures change.

The fabrics we use have also been tested to withstand all outdoor climates, as well as stains caused by beverages and food. In addition to a variety of Sunbrella and Bella Dura solution-dyed acrylic fabric brands that are designed for outdoor use, we use marine-grade vinyl, the same used on yachts and boats, which does not fade or crack and can withstand the chemicals used in pools and spas. These are easy to maintain (see clean and care instructions) and come in a variety of patterns and textures.

Our signature cushions and pillows are filled with Dryfast Foam and marine grade thread designed for outdoor use. All hardware such as staples, screws, and snaps are all stainless steel metal to keep our product lasting longer without the worry of rust.

## *Modern Minimalist* Collection by Somers Furniture

Modern Minimalist is about achieving better design through simplicity, a simplicity of form, space, materiality, detail and color. Outdoor furniture that has calmness, warmth and the beauty of the materials in this collection.

Exposed wood that weathers on the bases, add cement tops for carefree maintenance with plush cushioned tight seated upholstery atop to soften the hard surfaces but not blur the straight clean lines. U-shaped Sectional can be made as small or large as you have space for in your very own resort style backyard, using one, two or three sofas. Corner wood tables or modular chairs give added space for visual interest, texture and personality.

We believe this collection illustrates the “less is more” mentality of minimalist modern outdoor furniture.
